Subject: Cambridge - Public Water System: Umbagog Lake Camps (EPA #0337010)

Dear Ms. McLean:

The records of the Department of Environmental Services (DES) show that the Umbagog Lake Camps water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people, for 60 or more days per year. As such, the water system owner is required to submit samples to the State laboratory or a State-certified laboratory for coliform bacteria analysis in compliance with NH Admin. Rule Env-Ws 325.

DES records show that Standard Maximum Contaminant Level (MCL) violation for total coliform bacteria, as defined in NH Admin. Rule Env-Ws 315.01 had occurred and that a Notice of Violation (NOV) was issued for the month of **August 2003** (copy of NOV dated September 10, 2003 is enclosed).

Pursuant to Env-Ws 351, owners of public water systems are required to issue public notification when a system has exceeded the MCL limit for coliform bacteria. As a result of the failure to perform public notification for the August 2003 MCL violation, a NOV, dated November 20, 2003, was sent to you (copy enclosed). The NOV requested that you issue public notification within 30 days of learning of the MCL violation and submit a copy to DES immediately. To date, no proof of public notice has been received by DES, thus placing the water system in violation of Env-Ws 351.01.

In view of the public notice violation, DES believes the deficiency can be corrected, and future violations prevented, by taking the following actions:

- By May 10, 2004**, carry out the public notice requirements for the August 2003 MCL violation listed above; and
- 2. By May 24, 2004**, provide proof of public notice to DES.

Letter of Deficiency #WSEB 04-010

Page 2 of 2

If you have already done the public notice, then please forward it Barbara Thoits at the address listed on the form immediately.

In the event compliance is not achieved within the above set forth time period, DES may take further enforcement action, including issuing an order requiring the deficiencies be corrected, initiating an administrative fine proceeding and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

Please continue to submit water samples according to the water system's Master Sampling Schedule enclosed.

Please contact Anne Bailey by phone at (603) 271-0672 or by e-mail at abailey@des.state.nh.us if you have any questions regarding this letter.

Sincerely,

COPY
